Over its seventeen years of existence the Mexico Cumbre de Negocios has become the number one economic and business event in the region. It has expanded its footprint to cover not only Mexico's future in the global context but the key strategic issues common to, or impacting on, the whole region. The creation of the Pacific Alliance, the Trans Pacific Partnership developments have highlighted not only the opportunities being created but also how so many crucial issues affecting one country such as Mexico, and its partners, impact on one another. The Mexico Cumbre de Negocios has thus become the unique platform covering these strategic issues combining regional and national perspectives.
